Covering Connecticut

The effects of the Affordable Care Act on state residents

LITCHFIELD COUNTY

This analysis compares estimates of health care coverage in 2017 with the Affordable Care Act (ACA) and without it. Numbers are rounded to the nearest thousand.

For more data, please see the full report at www.cthealth.org.

DEMOGRAPHIC OVERVIEW: Litchfield County residents under 65

149,000
total residents under age 65

8,000
uninsured, 2017

15,000
would be uninsured without the ACA

6,000 residents are covered because of the ACA

- Among Litchfield County residents under age 65, the uninsured rate is 6%. Without the ACA, it would be 10% – nearly twice as high.
- 4% of Litchfield County residents under age 65 are covered due to the ACA.

Coverage changes resulting from the ACA, Litchfield County residents under age 65, 2017

	Estimated number of people covered without the ACA	Estimated coverage under the ACA		Impact of ACA	
		Number of people	Percentage of Litchfield County residents < age 65	Number of people	Percentage change
Medicaid	25,000	30,000	20%	5,000	22%
Employer-sponsored insurance	95,000	94,000	63%	**	**
Individual market	11,000	13,000	9%	2,000	17%
Other*	3,000	3,000	2%	**	**
Uninsured	15,000	8,000	6%	-6,000	-44%
Total	149,000	149,000	100%

New safeguards and benefits for people with private insurance and Medicare

Under the ACA, people with employer-sponsored coverage:

- Are protected from catastrophic medical costs because insurers can no longer impose annual or lifetime coverage limits
- Receive coverage of preventive services – including check-ups for babies, children, and adults; cancer screenings; and contraception – without copayments, deductibles, or other out-of-pocket costs
- Can immediately obtain coverage through Medicaid or Access Health CT if they lose their job-based coverage

These protections benefit the 94,000 Litchfield County residents – 63% of those under 65 – who have employer-sponsored insurance.

In addition to those protections, people who buy insurance through the individual market:

- Cannot be denied coverage or charged more if they have pre-existing conditions
- Are guaranteed coverage of all “essential health benefits,” including treatment of mental health and substance use disorders, prescription drugs, and maternity care
- May qualify for financial assistance to lower their premiums and out-of-pocket cost-sharing on plans offered through Access Health CT, depending on their income

These protections benefit the 13,000 Litchfield County residents – 9% of those under 65 – who buy coverage through the individual market.

The ACA gives Medicare beneficiaries additional coverage of preventive services and lowers their costs for prescription drugs. For them, the ACA has:

- Provided coverage of annual physicals, cancer screenings, and other preventive services, free of charge
- Increased coverage for medications in the “donut hole.” Medicare now covers 60% of the cost of name-brand drugs and 49% of the cost of generic medications for drug expenses that are between \$3,700 and \$4,950 per year. Without the ACA, Medicare beneficiaries would pay the full cost of these drugs.

These protections benefit the 36,000 Litchfield County residents – 19% of county residents of all ages – who are covered by Medicare.
