*This category includes people covered by Medicare and other public health insurance.
**Numbers are not shown due to small sample size.
Among Windham County residents who are covered due to the ACA:

- 12% are people of color
- 57% have no education beyond high school
- 71% live in working families, including 61% with full-time workers

New safeguards and benefits for people with private insurance and Medicare

Under the ACA, people with employer-sponsored coverage:

- Are protected from catastrophic medical costs because insurers can no longer impose annual or lifetime coverage limits
- Receive coverage of preventive services – including check-ups for babies, children, and adults; cancer screenings; and contraception – without copayments, deductibles, or other out-of-pocket costs
- Can immediately obtain coverage through Medicaid or Access Health CT if they lose their job-based coverage

These protections benefit the 57,000 Windham County residents – 58% of those under 65 – who have employer-sponsored insurance.

In addition to those protections, people who buy insurance through the individual market:

- Cannot be denied coverage or charged more if they have pre-existing conditions
- Are guaranteed coverage of all “essential health benefits,” including treatment of mental health and substance use disorders, prescription drugs, and maternity care
- May qualify for financial assistance to lower their premiums and out-of-pocket cost-sharing on plans offered through Access Health CT, depending on their income

These protections benefit the 5,000 Windham County residents – approximately 5% of those under 65 – who buy coverage through the individual market.

The ACA gives Medicare beneficiaries additional coverage of preventive services and lowers their costs for prescription drugs. For them, the ACA has:

- Provided coverage of annual physicals, cancer screenings, and other preventive services, free of charge
- Increased coverage for medications in the “donut hole.” Medicare now covers 60% of the cost of name-brand drugs and 49% of the cost of generic medications for drug expenses that are between $3,700 and $4,950 per year. Without the ACA, Medicare beneficiaries would pay the full cost of these drugs.

These protections benefit the 18,000 Windham County residents – 16% of county residents of all ages – who are covered by Medicare.
